

ARSLAN MUHAMMAD

React-Native Developer

About Me

"As a React Native developer, I've honed my skills in mobile app development. My proficiency in Node.js and MongoDB allows me to create robust and efficient applications."

0347-4875097

Satellite Town , Rawalpindi

PROJECTS

Weather-App

"I have developed a mobile app using React Native, integrating it with multiple weather APIs. The app's frontend is built with Tailwind CSS."

Expense-App

"I have created an expense app that stores both expenses and income. The backend of the app is built using Node.js and MongoDB."

Todo-list

"I have developed a todo list application where users can add, update, and delete tasks."
